FOR IMMEDIATE RELEASE

APPLETON INTERNATIONAL AIRPORT INCREASES PASSENGERS
BY 12 PERCENT IN FEBRUARY 2018

APPLETON, Wis., Mar. 26, 2018 - [Appleton International Airport](#) increased passengers in February 2018 by 12 percent compared to February 2017. Nearly 48,000 passengers traveled through Appleton International Airport in February 2018.

Appleton International Airport has had 10 straight months of passenger increases.

"Local passengers are increasing because not only are there affordable fares offered through ATW, but the airport's close proximity to home affords passengers the easiest and most convenient route to their destination," said Abe Weber, airport director.

The passenger increase is attributed to strong results by both American Airlines and United Airlines. American began service to Appleton in July 2017. The community response to the new airline has been so strong that American will add additional flights and larger aircraft later this spring. United has seen four straight months of customer increases, and is poised for a record year at Appleton, once the Appleton to Denver nonstop service begins June 8, 2018.

###

Appleton International Airport

Appleton International Airport serves business travelers and vacationers with flights to destinations around the world. Allegiant Air has nonstop flights out of Appleton International Airport to warm weather destinations. The airport also has flights to major hubs around the U.S. on American Airlines, Delta Air Lines and United Airlines.
