FOR IMMEDIATE RELEASE

### APPLETON INTERNATIONAL AIRPORT REPORTS 11 CONSECUTIVE MONTHS OF PASSENGER INCREASES

APPLETON, Wis., April 20, 2018 - [Appleton International Airport](#) had a 10 percent increase in passengers in March 2018 making it the 11th consecutive month of passenger increases. Nearly 60,000 passengers traveled through the airport in March 2018.

Appleton International Airport had a strong first quarter with a 13 percent increase in passengers.

"More and more passengers are seeing the convenience of ATW instead of driving to airports located several hours away," said Abe Weber, airport director.

"The overwhelming community support of our local airport means that 2018 will be the best year in ATW's 53-year history," said Thomas Nelson, Outagamie County Executive.

The passenger increase is due to strong results by both American Airlines and United Airlines.

American Airlines began service to Appleton in July 2017. The community response to the new airline has been so strong that American Airlines is adding additional flights and larger aircraft this spring.

United Airlines has seen five straight months of customer increases and is poised for a record year at Appleton once the Appleton to Denver nonstop service begins June 8, 2018.
