FOR IMMEDIATE RELEASE

APPLETON AIRPORT RANKS FOURTH FASTEST GROWING AIRPORT IN U.S.

APPLETON, Wis., June 1, 2018 - [Appleton International Airport](#) ranks as the fourth fastest growing airport in the nation according to [a study released by Bloomberg](#).

Airline seats jumped 26.8 percent over the past two years in Appleton. The growth is a combination of new routes, larger aircraft and additional frequency.

"ATW's growth is due to more and more people in Northeast Wisconsin realizing how convenient and affordable it is to fly right from Appleton, no long drive, and no long lines," said Abe Weber, airport director.

"This national recognition is remarkable, but not surprising," said Thomas Nelson, Outagamie County Executive. "We have built an economic, job creating and customer service track record second to none. Huge thanks goes to the entire ATW team for this accomplishment."

2018 looks to be Appleton International Airport's biggest year in history as airline service continues to grow. United Airlines begins daily nonstop service to Denver June 8. Abe Weber and Thomas Nelson will be available after 11 a.m. today, June 1, for media comments.

###

Appleton International Airport

Appleton International Airport serves Northeast Wisconsin with flights to destinations around the world. The airport has flights to major hubs around the U.S. on American Airlines, Delta Air Lines and United Airlines. Allegiant Air has nonstop flights from Appleton to four warm weather destinations.
