FOR IMMEDIATE RELEASE

APPLETON INTERNATIONAL AIRPORT REPORTS RECORD NUMBER OF PASSENGERS IN MAY

APPLETON, Wis., June 20, 2018 - More people are traveling through [Appleton International Airport](#) than ever before. Passengers increased nearly 26 percent in May 2018 compared to May 2017.

May marked the 13th consecutive month of passenger growth. More than 58,000 passengers traveled through the airport in May, up from 46,000 in May 2017, which makes May 2018 the biggest May in airport history.

"More and more passengers are recognizing how convenient it is to fly through Appleton Airport," said Abe Weber, airport director. "Plus, our new nonstop flight to Denver on United Airlines gives customers even more flight options when they're heading west."

"Our passenger growth this year is exhilarating, but what is even more exciting is seeing how the community response to our increased flights is motivating the airport team to aggressively push for more air service," said Thomas Nelson, Outagamie County Executive.

American Airlines began service to Appleton in July 2017. The community response to the new airline has been so strong that American Airlines added additional flights and larger aircraft this spring. United Airlines has seen seven straight months of customer increases and is poised for a record year at Appleton.

Appleton International Airport

Appleton International Airport serves Northeast Wisconsin with flights to destinations around the world. Appleton was named the fourth fastest growing airport in the United States by Bloomberg in May 2018. The airport has flights to major hubs around the U.S. on American Airlines, Delta Air Lines and United Airlines. Allegiant Air has nonstop flights from Appleton to four warm weather destinations.
