

Gulfstream Expanding Appleton Facility to Meet Demand and Growth of Fleet

Company Adding More Than 200 Jobs, New Paint Hangar and Expanding Capabilities

APPLETON, Wis., June 2, 2022 – Gulfstream Aerospace Corp. today announced it is investing more than \$55 million and hiring for more than 200 new positions at its Appleton, Wisconsin, facility to meet customer demand and growth in its fleet. The new investment is a continuation of expansion across the company, including new facilities in Fort Worth, Texas, and Mesa, Arizona, and an expansion of its Customer Support call center in Farnborough, England.

“Gulfstream continues to make significant investments across the company to address both current demand and future growth in our completions and Customer Support operations,” said Mark Burns, president, Gulfstream. “The investment in our Appleton facility is a key part of our overall strategy to provide our customers with industry leading completions and support worldwide.”

Gulfstream also announced that it will be hosting a job fair in Appleton on June 9, 2022, from 12:30 p.m.-4:30 p.m. at its facility at N687 Discovery Drive.

“We are in a period of rapid growth and are currently hiring for a wide range of positions. We have openings for engineers, mechanics, avionics technicians and highly skilled trade and craftspeople. Gulfstream offers excellent training to assist in starting a new career in aviation,” said L.D. Buerger, vice president of completions, Gulfstream. “Gulfstream creates the world’s finest business aircraft, designed and outfitted with beautiful interiors. We are excited about this expansion and the opportunity to recruit and hire new talent to join the Gulfstream team at our Appleton facility.”

Gulfstream is constructing a world-class aircraft paint facility in Appleton which is set to begin operations in the third quarter of 2023. The custom-designed, 73,000-square-foot/6,782-square-meter facility uses a proprietary paint booth design developed by Gulfstream in conjunction with Wisconsin-based paint booth manufacturer Global Finishing Solutions. The new facility will have the ability to paint up to 48 aircraft per year and will allow Gulfstream to perform the entire aircraft completions process start-to-finish in Appleton.

The company has recently made several enhancements to the facility to improve customer and employee experiences. Investments include a new office area for completions customers and pilots, a new wood

finishing area, an upgraded shipping and receiving area, and a completions hangar featuring an employee entrance, breakroom, and lockers.

NOTE TO EDITORS

Inspired by the belief that aviation could fuel business growth, Gulfstream Aerospace Corp. invented the first purpose-built business aircraft, the Gulfstream I, which first flew in 1958. Today, more than 3,000 aircraft are in service around the world. Together with parent company General Dynamics, Gulfstream consistently invests in the future, dedicating resources to researching and developing innovative new aircraft, technologies and services. With a fleet that includes the super-midsize Gulfstream G280, the high-performing Gulfstream G650 and Gulfstream G650ER, and a next-generation family of aircraft including the all-new Gulfstream G400, the award-winning Gulfstream G500 and Gulfstream G600, the flagship Gulfstream G700 and the ultralong-range Gulfstream G800, Gulfstream offers an aircraft for every mission. All are backed by Gulfstream's Customer Support network and its worldwide team. Visit our website at gulfstream.com.
